DETAILED ACTION

Applicant's arguments filed 11/21/11 have been fully considered but they are not persuasive. The Response submitted by Applicant does not overcome the rejection made by examiner in the last office action.

Claims 1,2 and 4-9 with the combination of formulae (2a) and (2b) as the elected species are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over US 2003/0096149 of record on 1449.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant's arguments are based on the claimed components in that the reference does not disclose the use of a methanol in the claimed direct methanol type fuel cell. However, Applicant is correct in stating that the methanol is a source to form hydrogen gas by stating that "----supplying hydrogen gas obtained by reforming a low MW hydrocarbon such as methanol----". Therefore, methanol is an indirect source of hydrogen gas in said composition. Further, Applicant's arguments are also raised a new problem cited below:

Claim Rejections - 35 USC § 112

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite in that it does not disclose the relationships between methanol and a polymer electrolyte and how it works since it is not understood that the methanol is a direct source or indirect source and how they relate to each other.

Further, one of ordinary skill in the art would not be motivated to form the claimed direct methanol type fuel cell based on the claimed requirements.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
